

Trinity has the opportunity, through a special link provided by *Double the Donation* to match contributions for individuals who work at certain companies or corporations.

Double the Donation's team maintains an up-to-date database of companies which match donations from their employees to nonprofits **such as our Trinity Elementary School** and provides an easy way for us to share the necessary information with our contributors.

Using the link on our “**Church**” web page slide show at tlcs.org, you can see if you work at such a company that offers matching gifts. By entering your employer’s name, you gain access to accurate and useful matching gift information. Everything *Double the Donation* does is specifically designed to help Trinity maximize the amount of money being raised from employee matching programs.
